

Cybersecurity Training that Protects Your People & Business

Keep employees alert, data safe and operations running with Pryor Learning's up-to-date cybersecurity courses—real skills, no extra cost.

Why It Matters

- **Prevent breaches:** Spot phishing, malware, social engineering
- **Reduce risk:** Ensure compliance, avoid fines
- **Maintain operations:** Respond fast, minimize downtime
- **Build trust:** Protect customer data
- **Strengthen culture:** Foster a security-aware workforce

Course Listing:

- AI Cyber Security for End Users
- Brain Bites - Email Encryption in Outlook
- Brain Bites - GDPR Essentials
- Brain Bites - Staying Safe Online
- C)CSO Certified Cloud Security Officer
- C)DFE Certified Digital Forensic Examiner
- C)PEH Certified Professional Ethical Hacker
- Certified Information Security Manager (CISM) Part 1
- Certified Information Security Manager (CISM) Part 2
- CISSP: Certified Information Systems Security Professional Part 1
- CISSP: Certified Information Systems Security Professional Part 2
- CISSP: Certified Information Systems Security Professional Part 3
- CISSP: Certified Information Systems Security Professional Part 4
- CISSP: Certified Information Systems Security Professional Part 5
- Complete Ethical Hacking Course 2.0: Python and Kali Linux
- CompTIA A+ Core 1 (220-1201)
- CompTIA A+ Core 2 (220-1202)
- CompTIA CASP+ (CAS-004) (Part 1 of 2)
- CompTIA CASP+ (CAS-004) (Part 2 of 2)
- CompTIA CySA+ (CS0-002) Part 1
- CompTIA CySA+ (CS0-002) Part 2
- CompTIA Network+ (N10-009) Part 1
- CompTIA Network+ (N10-009) Part 2
- CompTIA Network+ (N10-009) Part 3
- CompTIA Network+ (N10-009) Part 4
- CompTIA Network+ (N10-009) Part 5
- CompTIA PenTest+ (PT0-003)
- CompTIA Security+ (SY0-701) Part 1
- CompTIA Security+ (SY0-701) Part 2
- CompTIA Security+ (SY0-701) Part 3
- CompTIA SecurityX (CAS-005)
- CompTIA Tech+ (FC0-U71)
- Cyber Security Basics

- CyberSec First Responder: Threat Detection and Response Part 1
- CyberSec First Responder: Threat Detection and Response Part 2
- Cybersecurity Awareness: Real Stories
- Cybersecurity Awareness: Real Stories for Managers
- Cybersecurity in the World of AI
- Cybersecurity Simplified: A Strategic Plan for Small Business Protection
- Cybersecurity While Traveling
- Cybersecurity: An Overview
- Cybersecurity: An Overview (French Canadian)
- Cybersecurity: An Overview (Spanish)
- Cybersecurity: Email Best Practices
- Cybersecurity: Email Best Practices (French Canadian)
- Cybersecurity: Email Best Practices (Spanish)
- Cybersecurity: Malware and Ransomware
- Cybersecurity: Malware and Ransomware (French Canadian)
- Cybersecurity: Malware and Ransomware (Spanish)
- Cybersecurity: Understanding Phishing
- Cybersecurity: Understanding Phishing (French Canadian)
- Cybersecurity: Understanding Phishing (Spanish)
- Cybersecurity: Web Protection
- Cybersecurity: Web Protection (French Canadian)
- Cybersecurity: Web Protection (Spanish)
- Database Security for Cyber Professionals
- Defining Cybersecurity
- Digital Forensics for Cyber Professionals
- Effective Network Security
- Empowering Leaders with Cybersecurity Training Essentials
- Ethical Hacking: Cryptography for Hackers
- Ethical Hacking: Cyber Anonymity
- Ethical Hacking: Hacking Applications
- Ethical Hacking: Hacking Databases
- Ethical Hacking: Honeypots IDS and Firewalls
- Ethical Hacking: Malware Development
- Ethical Hacking: Penetration Testing
- Ethical Hacking: Recon and Footprinting
- Ethical Hacking: Social Engineering
- Ethical Hacking: Wireless Hacking
- GDPR
- Malware Basics
- Minimizing Insider Threats
- NIST Cybersecurity and Risk Management Frameworks, Part 1 of 2
- NIST Cybersecurity and Risk Management Frameworks, Part 2 of 2
- Protecting Against Identity Theft
- Protecting Your Mobile Device
- Ransomware
- Social Engineering
- Survey Says: How to Identify Phishing Emails
- Think Before You Click (Cybersecurity): Lesson 1 - Introduction
- Think Before You Click (Cybersecurity): Lesson 2 - Types of Threats
- Think Before You Click (Cybersecurity): Lesson 3 - Protecting Your Computer
- Think Before You Click (Cybersecurity): Lesson 4 - Strong Password
- Think Before You Click (Cybersecurity): Lesson 5 - Social Engineering
- Think Before You Click (Cybersecurity): Lesson 6 - Backups
- Think Before You Click (Cybersecurity): Lesson 7 - Clickbait
- Think Before You Click (Cybersecurity): Lesson 8 - Protecting Yourself
- Think Before You Click (Cybersecurity): Lesson 9 - Red Flags
- Using Strong Passwords
- Wireless Hacking for Cyber Professionals
